

## DIN 76051-TUV Approved Plastic Wheel Chock

These DIN approved wheel chocks are made from a strong thermoplastic, either polypropylene or polyethylene. In comparison to our standard rubber wheel chocks these are highly visible, strong and lightweight. Each of these chocks has a corresponding bracket which can be installed on a wall or inside the vehicle to easily store the wheel chock when not in use.

### Product Information

Materials: HDPE

Made in ITALY

- Colour: Yellow
- Max Tire Diameter: 1060 mm
- Size: 484L x 200W x 232H
- Weight: 2.7 Kg

### Key Features

- DIN 76051-TUV Approved
- Light weight
- Highly visible
- No dew condensation caused by climate changes
